

Faculty of Information Studies in Novo Mesto	<b>RULES</b>	Number: SA-1014
	<b>CRITERIA FOR TRANSFERRING BETWEEN STUDY PROGRAMMES</b>	Page: 1/13

Based on Article 39 of the Higher Education Act (The Official Gazette of the Republic of Slovenia No. 32/2012-UPB7, 40/12-ZUJF, 57/12-ZPCP-2D, 109/12, 85/14, 75/16, 61/17 – ZUPŠ, and 65/17), Criteria for Transferring Between Study Programmes (The Official Gazette of the Republic of Slovenia No. 14/19) and Article 32 of the Statute of the Faculty of Information Studies in Novo mesto (The Official Gazette of the Republic of Slovenia No. 51/21), the Senate of the Faculty of Information Studies in Novo mesto adopted and amended the Criteria for Transferring Between Study Programmes at its 3<sup>rd</sup> session on 23<sup>rd</sup> January 2013, 13<sup>th</sup> session on 23<sup>rd</sup> October 2013, 15<sup>th</sup> session on 26<sup>th</sup> February 2014, 5<sup>th</sup> session on 24<sup>th</sup> February 2015, 9<sup>th</sup> session on 23<sup>rd</sup> June 2015, 20<sup>th</sup> session on 29<sup>th</sup> January 2016, 28<sup>th</sup> session on 23<sup>rd</sup> April 2018, 75<sup>th</sup> (correspondence) session on 30<sup>th</sup> June 2020, 78<sup>th</sup> (correspondence) session on 8<sup>th</sup> September 2020, 7<sup>th</sup> session on 24. November 2020 and 21<sup>st</sup> session on 20<sup>th</sup> July 2021 with corresponding additions the following

## **CRITERIA FOR TRANSFERRING BETWEEN STUDY PROGRAMMES**

### Article 1

(1) A transfer between study programmes is the following:

1. an enrolment in the second or higher year of a higher education study programme in the event of termination of education under the first study programme and continuation of study under the second study programme of the same level, or an enrolment of a higher education graduate in a new study programme of the same level;
2. an enrollment of a higher education graduate in the second year of a first level higher education study programme.

### Article 2

(1) Transfers are possible between study programmes:

1. whose completion results in obtaining comparable competences or learning outcomes;
  2. between which at least half of the obligations under the European Credit Transfer System (hereinafter: ECTS) from the first study programme related to compulsory subjects of the second study programme may be recognized according to the criteria for the recognition of knowledge and skills acquired before the enrollment in the programme.
- (2) Regardless of the other provisions of this criteria a transfer to study programmes at FIŠ shall be possible only if the student fulfills the criteria for enrollment in study programmes at FIŠ and if free enrollment slots are available.
- (3) Graduates who enroll directly in the second or third year are subject to additional obligations in the form of exams and for the first or for the first and second year of study programme in which they enroll, recognizes the difference of ECTS, which are not obtained by passing additional exams.

-------------	-------------------------	------------------------	-----------------------------	------------------------

Faculty of Information Studies in Novo Mesto	<b>RULES</b>	Number: SA-1014
	<b>CRITERIA FOR TRANSFERRING BETWEEN STUDY PROGRAMMES</b>	Page: 2/13

### Article 3

- (1) Depending on the scope of recognized obligations from the first study programme in the Republic of Slovenia or abroad, the student may enroll in the same year or a higher year in a study programme at FIŠ.
- (2) A student may enroll in a higher year study programme at FIŠ if, in the recognition process for transfer, student has been recognized at least as many and those credit points that are the condition for enrollment in a higher year study programme at FIŠ.
- (3) During the transition, previously acquired knowledge may be recognized, which the student demonstrates with appropriate documents:
  - comparable study obligations that the student completed in the first study programme;
  - informally acquired comparable knowledge.
- (4) Recognition of completed exams in the first study programme is done with accordance to the Rules on Recognition of Knowledge and Skills.
- (5) Applications for transfer between study programmes are considered by the Commission for Study and Student Affairs.

### Article 4

All completed and recognized study obligations after the first and second study programme must be shown in the Annex to the diploma.

### Article 5

(VS)

- (1) Transfers planned to the first level professional study programme (VS) at FIŠ are:
  - from professional and university study programmes of the first level,
  - from post-secondary study programmes accepted before 1<sup>st</sup> January 1994 (non-Bologna study programmes),
  - from professional and university study programmes accepted before 11<sup>th</sup> June 2004 (non-Bologna study programmes),
  - from professional study programmes under the Vocational Education Act accepted after 1<sup>st</sup> January 1994.
- (2) Graduates of the post-secondary professional study programmes accepted after 1<sup>st</sup> January 1994 may enroll directly in the 2<sup>nd</sup> year higher education professional study programme **Informatics in Contemporary Society**, if they meet the conditions for enrollment in the higher education professional study programme. Enrolled students must complete additional exams in the amount of at most 30 ECTS, which arise from the differences between study programmes, before enrolling in the 3<sup>rd</sup> year. Additional exams are prescribed by the competent authority of the faculty on the basis of the enrollment application and relevant supporting documents.
- (3) Graduates of the post-secondary study programmes accepted before 1<sup>st</sup> January 1994 may enroll directly in the 3<sup>rd</sup> year of the higher education professional study programme Informatics in Contemporary Society, if they meet the conditions for

	<b>CRITERIA FOR TRANSFERRING BETWEEN STUDY PROGRAMMES</b>	Page: 3/13

enrollment in the higher education professional study programme. Before applying for the bachelor's thesis topic, the graduates must complete additional exams in selected courses from the 1<sup>st</sup> and/or 2<sup>nd</sup> year, which are prescribed by the competent authority of the faculty on the basis of the identified differences between study programmes in the amount of at most 60 ECTS:

- if the candidate has completed a study programme for obtaining a post-secondary education in the study areas of computer science and informatics, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams in the scope of at most 12 ECTS;
- if the candidate has completed a study programme for obtaining a post-secondary education in the study area of social or business informatics, which belong to the study areas of social science and business and administrative sciences, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams in the scope of at most 18 ECTS;
- if the candidate has completed a study programme for obtaining a post-secondary education in other study areas that belong to the study areas of social sciences and business and administrative sciences, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams in the scope of at most 30 ECTS;
- if the candidate has completed a study programme for obtaining a post-secondary education in other study areas, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams in the scope of at most 60 ECTS.

(4) Graduates of any higher education professional or university study programme accepted before 11<sup>th</sup> June 2004 may enroll directly in the 3<sup>rd</sup> year of the first level higher education professional study programme Informatics in Contemporary Society, if they meet the conditions for enrollment in the higher education professional programme. Before applying for the bachelor's thesis topic, all candidates must complete additional exams in selected courses from the 1<sup>st</sup> and/or 2<sup>nd</sup> year, which are prescribed by the competent authority of the faculty on the basis of the identified differences between study programmes in the amount of at most 60 ECTS:

- if the candidate has completed a study programme for obtaining a higher professional or university education in the study areas of computer science and informatics, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams in the scope of at most 6 ECTS;
- if the candidate has completed a study programme for obtaining a higher professional or university education in the study area of social or business informatics, which belong to the study areas of social science and business and administrative sciences, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams in the scope of at most 12 ECTS;
- if the candidate has completed a study programme for obtaining a higher professional or university education in other study areas that belong to the study areas of social sciences and business and administrative sciences, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams in the scope of at most 30 ECTS;

- if the candidate has completed a study programme for obtaining a higher professional or university education in other study areas, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams in the scope of at most 60 ECTS.

(5) Transfers planned to the first level professional study programme **Computer Science and Web Technologies** are:

- from professional and university study programmes of the first level,
- from post-secondary study programmes accepted before 1<sup>st</sup> January 1994 (non-Bologna study programmes),
- from professional and university study programmes accepted before 11<sup>th</sup> June 2004 (non-Bologna study programmes),
- from professional study programmes under the Vocational Education Act accepted after 1<sup>st</sup> January 1994.

(6) Graduates of the post-secondary education professional study programmes accepted after 1<sup>st</sup> January 1994 may enroll directly in the 2<sup>nd</sup> year higher education professional study programme Computer Science and Web Technologies, if they meet the conditions for enrollment in the higher education professional study programme. Enrolled students must complete additional exams in the amount of at most 30 ECTS, which arise from the differences between study programmes, before enrolling in the 3<sup>rd</sup> year. Additional exams are prescribed by the competent authority of the faculty on the basis of the enrollment application and relevant supporting documents.

Graduates of the post-secondary education professional study programmes from the area of computer science and informatics are prescribed the following additional exams: Mathematics 2, Operating Systems and Web Programming 1.

Graduates of the other post-secondary education professional study programmes are prescribed the following additional exams: Mathematics 2, Operating Systems, Web Programming 1, Introduction to Algorithms and Introduction to Programming.

(7) Graduates of the post-secondary education programmes accepted before 1<sup>st</sup> January 1994 may enroll directly in the 3<sup>rd</sup> year of the higher education professional study programme Computer Science and Web Technologies, if they meet the conditions for enrollment in the higher education professional study programme. Before applying for the bachelor's thesis topic, the graduates must complete additional exams in selected courses from the 1<sup>st</sup> and/or 2<sup>nd</sup> year, which are prescribed by the competent authority of the faculty on the basis of the identified differences between study programmes:

- if the candidate has completed a study programme for obtaining a post-secondary education in the study areas of computer science and informatics, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams Web Programming 1 and Web Programming 2;
- if the candidate has completed a study programme for obtaining a post-secondary education in the study area of social or business informatics, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams Web Programming 1, Web Programming 2, Operating Systems, and Web and Mobile Application Development Life-Cycle;

- if the candidate has completed a study programme for obtaining a higher professional or university education in the area of social or business informatics, which belong to the study areas of social science and business and administrative sciences, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams in the scope of at most 12 ECTS.
- if the candidate has completed a study programme for obtaining a higher professional or university education in other areas that belong to the study areas of social sciences and business and administrative sciences, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams in the scope of 30 ECTS.
- if the candidate has completed a study programme for obtaining a higher professional or university education in other study areas, the competent authority of the faculty, based on the application for enrollment, prescribes the candidate additional exams in the scope of at most 60 ECTS.

#### Article 7

(MAG)

- (1) Transfers planned to the second level master's study programme **Informatics in Contemporary Society** are:
  - from study programmes of the second level,
  - for graduates of the so called non-Bologna study programmes whose transfers are regulated in the transition provision ZviS-E (Article 16).
- (2) Graduates of the university study programmes accepted before 11<sup>th</sup> June 2004 (non-Bologna study programmes) enroll in the 2<sup>nd</sup> year of the second level study programme Informatics in Contemporary Society and the competent authority of the faculty prescribes the graduates additional exams from the first year of the second level study programme Informatics in Contemporary Society.
- (3) Graduates of study programmes for obtaining specialization, accepted before 11<sup>th</sup> June 2004, who have previously completed a higher education professional study programme, as a rule, enroll in the 2<sup>nd</sup> year of the second level study programme Informatics in Contemporary Society and the competent authority of the faculty prescribes the graduates additional exams from the first year of the second level study programme Informatics in Contemporary Society.
- (4) Directly in the 2<sup>nd</sup> year of the second level master's study programme Informatics in Contemporary Society may enroll:
  - whoever completed a study programme for obtaining a higher university or specialization education accepted before 11<sup>th</sup> June 2004 from the study areas of computer science and informatics. Competent authority of FIŠ, based on the application for enrollment, prescribes the candidate additional study obligations in the scope of at most 6 ECTS.
  - Whoever completed a study programme for obtaining a higher university or specialization education accepted before 11<sup>th</sup> June 2004 from the study area of

	<b>CRITERIA FOR TRANSFERRING BETWEEN STUDY PROGRAMMES</b>	Page: 8/13

social or business informatics, which belong to the study areas of social science and business and administrative sciences. Competent authority of FIŠ, based on the application for enrollment, prescribes the candidate additional study obligations in the scope of at most 12 ECTS.

- whoever completed a study programme for obtaining a higher university or specialization education accepted before 11<sup>th</sup> June 2004 from other professional areas that belong to the study areas of social sciences, natural sciences, technical sciences and business and administrative sciences. Competent authority of FIŠ, based on the application for enrollment, prescribes the candidate additional study obligations in the scope of at most 30 ECTS.
- whoever completed a study programme for obtaining a higher university or specialization education accepted before 11<sup>th</sup> June 2004 from other study areas. Competent authority of FIŠ, based on the application for enrollment, prescribes the candidate additional study obligations in the scope of at most 45 ECTS.

Due to the diversity and specifics of individual study programs, deviations are possible due to the individual treatment of individual candidates for enrollment.

(5) Transfers planned to the second level master's study programme **Computer Science and Web Technologies** are:

- from study programmes of the second level,
- for graduates of the so called non-Bologna study programmes whose transfers are regulated in the transition provision ZviS-E (Article 16).

(6) Graduates of the university study programmes accepted before 11<sup>th</sup> June 2004 (non-Bologna study programmes) enroll in the 2<sup>nd</sup> year of the second level study programme Computer Science and Web Technologies and the competent authority of the faculty prescribes the graduates additional exams from the first year of the second level study programme Computer Science and Web Technologies.

(7) Graduates of study programmes for obtaining specialization, accepted before 11<sup>th</sup> June 2004, who have previously completed a higher education professional study programme, as a rule, enroll in the 2<sup>nd</sup> year of the second level study programme Computer Science and Web Technologies and the competent authority of the faculty prescribes the graduates additional exams from the first year of the second level study programme Computer Science and Web Technologies.

(8) Directly in the 2<sup>nd</sup> year of the second level master's study programme Computer Science and Web Technologies may enroll:

- whoever completed a study programme for obtaining a higher university or specialization education accepted before 11<sup>th</sup> June 2004 from the study areas of computer science and informatics. Competent authority of FIŠ, based on the application for enrollment, prescribes the candidate additional study obligations in the scope of at most 7 ECTS.
- whoever completed a study programme for obtaining a higher university or specialization education accepted before 11<sup>th</sup> June 2004 from the study area of social or business informatics, which belong to the study areas of social science and business and administrative sciences. Competent authority of FIŠ, based on the application for enrollment, prescribes the candidate additional study obligations in the scope of at most 14 ECTS.

- whoever completed a study programme for obtaining a higher university or specialization education accepted before 11<sup>th</sup> June 2004 from other study areas. Competent authority of FIŠ, based on the application for enrollment, prescribes the candidate additional study obligations in the scope of at most 45 ECTS.
- Due to the diversity and specifics of individual study programs, deviations are possible due to the individual treatment of individual candidates for enrollment.

#### Article 8

(DR)

- (1) Transfers to the third level doctoral study programme **Information Society** are:
- from doctoral study programmes of the third level,
  - for graduates of the so called non-Bologna study programmes whose transfers are regulated in the transition provision ZViS-E (Article 16)
  - from study programmes for obtaining master of sciences.
- (2) Directly in the 2<sup>nd</sup> year of doctoral study programme Information Society may enrol a candidate who completed:
- a study programme for obtaining master of sciences, accepted before 11<sup>th</sup> June 2004, and is recognized 60 ECTS upon enrollment,
  - a study programme for obtaining a university education accepted before 11<sup>th</sup> June 2004, and study programme for obtaining a specialization and is recognized 60 ECTS upon enrollment,
- whereby the candidate must submit the disposition of his doctoral dissertation by the end of the first semester of the 2<sup>nd</sup> year.
- Due to the diversity and specifics of individual study programmes, deviations are possible due to the individual treatment of individual candidates for enrollment.

#### Article 9

- (1) The criteria come into force the day after they are adopted by the faculty Senate.
- (2) In study programmes that were accredited before the validity of these criteria, the conditions for transitions between study programmes will be harmonized with these criteria no later than six months from the day they come into force.

President of the Senate of FIŠ

Prof. dr. Matej Makarovič

		Article 4, the previous Article 5 is renumbered as Article 6, the previous Article 6 is renumbered as Article 7, the previous Article 7 is renumbered as Article 8 and the previous Article 8 is renumbered as Article 9. In Article 7 the transition to the master's study programme Computer Science and Web Technologies is added (paragraphs 5 to 8).
10	24 <sup>th</sup> November 2020	In Article 7 the transition to the master's study programme Data Sciences is added (paragraphs 9 to 12).
11	20 <sup>th</sup> July 2021	<p>In paragraph 4 of Article 7, indent 3 is changed and now reads: »whoever completed a study programme for obtaining a higher university or specialization education accepted before 11<sup>th</sup> June 2004 from other professional areas that belong to the study areas of social sciences, natural sciences, technical sciences and business and administrative sciences. Competent authority of FIŠ, based on the application for enrollment, prescribes the candidate additional study obligations in the scope of at most 30 ECTS.«</p> <p>In paragraph 4 of Article 7 a new indent 4 is added that reads: »whoever completed a study programme for obtaining a higher university or specialization education accepted before 11<sup>th</sup> June 2004 from other study areas. Competent authority of FIŠ, based on the application for enrollment, prescribes the candidate additional study obligations in the scope of at most 45 ECTS. Due to the diversity and specifics of individual study programs, deviations are possible due to the individual treatment of individual candidates for enrollment.«</p> <p>In paragraph 8 of Article 7 indent 3 is changed and now reads: »whoever completed a study programme for obtaining a higher university or specialization education accepted before 11<sup>th</sup> June 2004 from other professional areas that belong to the study areas of social sciences, natural sciences, technical sciences and business and administrative sciences. Competent authority of FIŠ, based on the application for enrollment, prescribes the candidate additional study obligations in the scope of at most 30 ECTS.«</p> <p>In paragraph 8 of Article 7 a new indent 4 is added that reads: »whoever completed a study programme for obtaining a higher university or specialization education accepted before 11<sup>th</sup> June 2004 from other study areas. Competent authority of FIŠ, based on the application for enrollment, prescribes the candidate additional study obligations in the scope of at most 45 ECTS. Due to the diversity and specifics of individual study programs, deviations are possible due to the individual treatment of individual candidates for enrollment.«</p> <p>In paragraph 12 of Article 7 indent 3 is changed and now reads:</p>
