

CALL FOR PAPERS

Second International Interdisciplinary Conference

THE FUTURE OF HUMAN WORKFORCE, ROBOTIZATION AND AUTOMATISATION

29 SEPTEMBER 2026

ONLINE CONFERENCE

FREE OF CHARGE

The conference provides an interdisciplinary forum for examining how digitalization, artificial intelligence, demographic change, the green transition, and evolving forms of work are reshaping the future of the workforce across Europe and beyond.

ABOUT THE CONFERENCE

The conference is designed to foster dialogue among researchers, policymakers, practitioners, and stakeholders through moderated discussions and interactive sessions.

Authors will be invited to present their work in concise 10-minute presentations, followed by discussion with the audience.

We welcome abstracts presenting original theoretical, empirical, comparative, or interdisciplinary research related to the conference themes.
