

UČNI NAČRT PREDMETA / COURSE SYLLABUS	
Predmet: Course title:	Digitalna transformacija poslovnih procesov Digital Transformation of Business Processes
Študijski program in stopnja Study programme and level	Študijska smer Study field

Študijski program in stopnja Study programme and level	Študijska smer Study field	Letnik Academic year	Semester Semester
Poslovna informatika, magistrski študijski program druge stopnje	-	Prvi	Drugi
The second cycle masters study programme Business Informatics	-	First	Second

Vrsta predmeta / Course type	Obvezni / Obligatory
------------------------------	----------------------

Univerzitetna koda predmeta / University course code:	4-PI-MAG-DTPP-2022-05-27
-------------------------------------------------------	--------------------------

Predavanja Lectures	Seminar	Vaje Tutorial	Klinične vaje work	Druge oblike študija	Samost. delo Individ. work	ECTS
30	/	20	/	/	100	5

Nosilec predmeta / Lecturer:	Doc. dr. Urška Fric
------------------------------	---------------------

Jeziki / Languages:	Predavanja / Lectures:	Slovenski, Angleški / Slovene, English
	Vaje / Tutorial:	Slovenski, Angleški / Slovene, English

Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:	Prerequisites:
-----------------------------------------------------------------------	----------------

Za vključitev v delo mora študentka/študent poznati vsebino predmeta Digitalizacija poslovanja.	The student must know the content of the subject Digitalization of Business.
-------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------

Vsebina:	Content (Syllabus outline):
----------	-----------------------------

<ul style="list-style-type: none"> • Poslovni procesi. • Management poslovnih procesov. • Digitalna transformacija. • Digitalna strategija. • Vpliv globalnih družbenih trendov na digitalno transformacijo poslovnih procesov. • Digitalna transformacija poslovnih procesov v različnih institucijah. • Različni metodološki pristopi pri proučevanju poslovnih procesov. • Analiza poslovnih procesov v različnih institucijah. • Strateško načrtovanje digitalne transformacije poslovnih procesov v različnih institucijah. • Programska orodja za načrtovanje, testiranje in upravljanje poslovnih procesov. • Management znanja in tehnologij v poslovnih procesih. • Strateško načrtovanje ustvarjanja vrednosti z digitalno transformacijo poslovnih procesov. • Upravljanje z znanjem in tehnologijami na področju digitalne transformacije. • Transfer znanja in tehnologij iz raziskovalnega okolja v različne institucije. 	<ul style="list-style-type: none"> • Business processes. • Management of business processes. • Digital transformation. • Digital strategy. • The impact of global social trends on the digital transformation of business processes. • Digital transformation of business processes in different institutions. • Different methodological approaches in researching business processes. • Analysis of business processes in different institutions. • Strategic planning the digital transformation of business processes in different institutions. • Software tools for planning, testing, and managing business processes. • Management of knowledge and technologies in business processes. • Strategic planning for creating value with digital transformation of business processes. • Knowledge and technology management in the field of digital transformation. • Knowledge and technology transfer from the research institutions to different institutions.

Cilji in kompetence:**Spološne kompetence:**

- Splošen pregled nadrazumevanje digitalizacije digitalizacijo poslovanja. Sposobnost pridobivanja, selekcije, ocenjevanja in umeščanja novih informacij in zmožnost njihove interpretacije za reševanje poslovnih problemov.
- Sposobnost iskanja virov in pridobivanja podatkov za transformacijo poslovanja.
- Uspodbjenost za poslovno komuniciranje in skupinsko delo.
- Sposobnost obvladovanja in pretvorbe realnega poslovnega problema v obliki lažje predstavljivega poslovnega modela.
- Sposobnost fleksibilne uporabe znanja v praksi.
- Prizadevanje za kakovost strokovnega dela skozi avtonomnost, samoiniciativnost, (samo)kritičnost, (samo)refleksivnost in (samo)evalviranje.
- Kritično razmišljanje o omejitvah poslovnih podatkov in njihovi etični uporabi.

Predmetno-specifične kompetence:

- Argumentacija digitalne transformacije v poslovnih procesih različnih institucij.
- Uporaba metodologije (raziskovalne metode in tehnike) pri proučevanju poslovnih procesov.
- Uporaba specifičnih programskih orodij za načrtovanje, testiranje in upravljanje poslovnih procesov.
- Izdelava delovnega predloga analize poslovnih procesov v različnih institucijah.
- Analiza različnih pristopov vodenja in vzdrževanja poslovnih procesov v različnih institucijah.
- Analiza različnih pristopov digitalne transformacije poslovnih procesov v različnih institucijah.
- Načrtovanje transferja znanja in tehnologij razvitih pri digitalizaciji poslovnih procesov, iz raziskovalnih institucij v različne institucije.

Objectives and competences:**General competences:**

- General overview understanding of the digitalization of business. Obtain, select, evaluate and place new information and interpret them to solve business problems.
- Search for resources and obtain data for business transformation.
- Business communication and teamwork skills.
- Manage and transform a real-life business problem into a simplified visual representation.
- Flexibility in practical application of knowledge.
- Striving for high quality of professional work through autonomy.
- Critical thinking about the limitations of business data and its ethical use.

Subject-specific competences:

- argumentation of digital transformation in the business processes of different institutions.
- Usage of methodology (research methods and techniques) in the study of business processes.
- Use of a specific software tools for designing, testing and managing business processes.
- Developing a work proposal for analysis of business processes in different institutions.
- Analysis of different approaches to manage and maintaining business processes in different institutions.
- Analysis of different approaches for digital transformation of business process in different institutions.
- Planning of transfer knowledge and technology developed in the digital transformation of business processes

	from research institutions to different institutions.
--	-------------------------------------------------------

Predvideni študijski rezultati:

Študenti bodo zmožni:

- prepoznati pomen in vlogo digitalne transformacije v poslovnih procesih,
- interpretirati vpliv globalnih družbenih trendov na digitalno transformacijo v poslovnih procesih,
- načrtovati management poslovnih procesov,
- uporabljati predvideno metodologijo pri raziskovanju poslovnih procesov,
- uporabljati programska orodja za načrtovanje, testiranje in upravljanje poslovnih procesov,
- izvesti analizo poslovnega procesa v izbrani instituciji,
- prepoznati vlogo managementa znanja in tehnologij v institucijah,
- orisati faze za ustvarjanje vrednosti z digitalno transformacijo poslovnih procesov,
- načrtovati transfer znanja in tehnologij iz raziskovalnega okolja v različne institucije.

Intended learning outcomes:

Students will be able to:

- recognise the meaning and role of digital transformation in business processes,
- interprete the impact of global social trends on digital transformation in business processes,
- plan the impact of digital transformation on digital processes,
- use the methodology provided in the research of business processes,
- use software tools for the design, testing and management of business processes,
- perform an analyze of a business process in a selected institution,
- recognise the role of knowledge and technology management in institutions,
- outline the stages for creating value through digital transformation of business processes,
- plan the transfer of knowledge and technology from the research institutions to different institutions.

Metode poučevanja in učenja:

- Predavanja z aktivno udeležbo študentov (razlaga, diskusija, vprašanja, primeri, reševanje problemov).
- Vaje na seminarski način (timsko delo, metode kritičnega mišljenja, diskusija, sporočanje povratne informacije).
- Vaje, ki temeljijo na izkušenjskem, sodelovalnem in problemskem učenju (samostojno učenje, diskusija, razlaga, opazovanje, timsko delo, študija primera, uporaba programskih orodij, metode kritičnega branja in pisanja, evalvacija, samoocenjevanje).
- Individualne in/ali skupinske konzultacije (diskusija, dodatna razlaga, obravnavanje specifičnih vprašanj).

Learning and teaching methods:

- Lectures with active participations by the students (explanation, discussion, questions, cases, problems solving).
- Seminars (teamwork, methods of critical thinking, discussions, reporting feedback information).
- Seminars based on experience-based learning, participation in problem learning (independent study, discussion, explanation, observation, teamwork, case study, use of software tools methods of critical reading and writing, evaluation, self-evaluation).
- Individual and/or groups consultations (discussion, additional explanation, dealing with specific issues).
